Correction of: <https://www.jmir.org/2020/10/e16355>

(*J Med Internet Res* 2020;22(10):e24891) doi: [10.2196/24891](https://doi.org/10.2196/24891)

In “Building a Digital Tool for the Adoption of the World Health Organization's Antenatal Care Recommendations: Methodological Intersection of Evidence, Clinical Logic, and Digital Technology” (*J Med Internet Res* 2020;22(10):e16355) the authors noted three errors.

The name of author Tigest Tamrat was incorrectly listed as “Tigist Tamrat”. This has now been changed to the correct spelling.

Under the section “Structured Documentation”, one instance of the phrase “business process mapping (BPM)” has been corrected to “business process mapping notation (BPMN)”.

Figure 6 has been replaced with a new version of subsection B (seen below), as the authors did not have permission to use images displayed in the originally published version of subsection B. Figure 6 subsections A, C, and D have not been changed from the originally published version.

Figure 6. Screenshots of the World Health Organization Digital Antenatal Care (WHO digital ANC) module. A: List of patients; B: Individual patient record summary; C: Home screen; D: Patient contact summary.

The correction will appear in the online version of the paper on the JMIR Publications website on October 13, 2020, together with the publication of this correction notice. Because this was

made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.

This is a non-peer-reviewed article. Submitted 08.10.20; accepted 08.10.20; published 13.10.20.
