In “Wearable Artificial Intelligence for Anxiety and Depression: Scoping Review” (*J Med Internet Res* 2023;25:e42672) the authors noted one error.

In [Multimedia Appendix 8](#), the columns reporting the information extracted did not match the studies in the first column. An amended version will replace the erroneous version to realign this information.

The correction will appear in the online version of the paper on the JMIR Publications website on February 7, 2023 together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.
